VISION

To operate with excellence and integrity, and to be recognized as a trusted leader by our employees, customers, and shareholders.

MISSION

To create sustainable shareholder value by delivering high-quality aluminium extrusion solutions through innovation and cost efficiency, while upholding the highest standards of service, reliability, and safety.

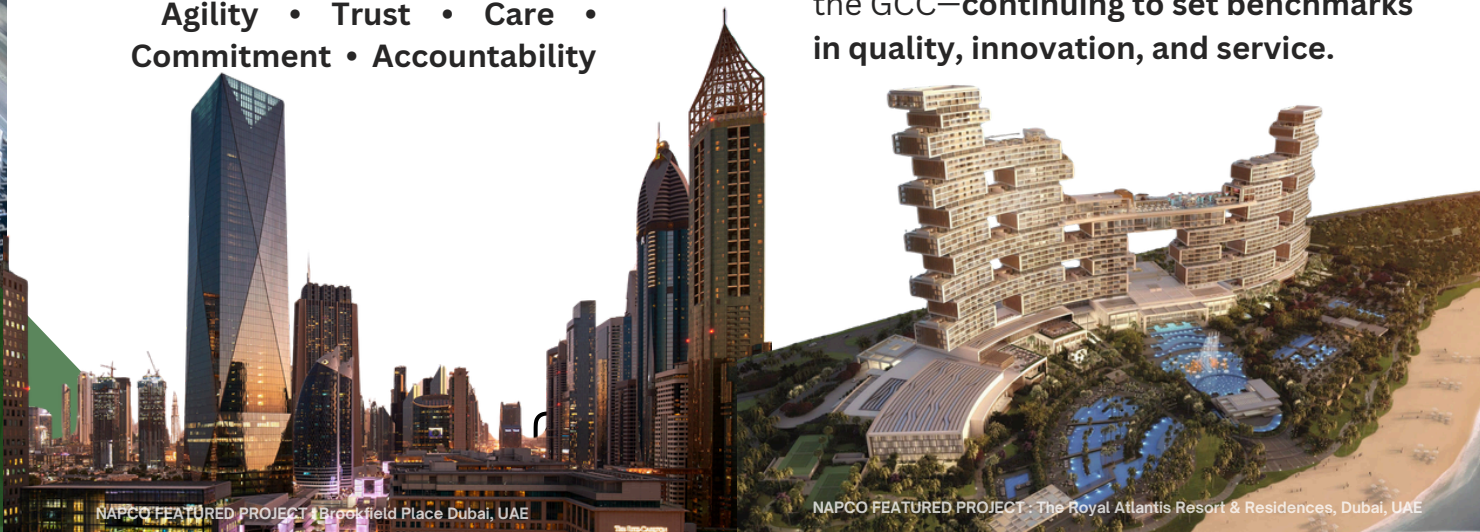

VALUES

**Agility • Trust • Care •
Commitment • Accountability**

ABOUT US

National Aluminium Products Company SAOG, established in 1984, is a **leading aluminium extrusion company in the GCC**, headquartered in Oman. From our 62,000 sqm facility in Rusayl Industrial Estate, we deliver high-quality aluminium solutions for modern architectural and industrial applications.

With a production capacity of 42,000 MT, advanced European extrusion technology, and integrated finishing facilities, NAPCO ensures precision, durability, and design excellence. A pioneer in the region, NAPCO was the first in the Gulf to achieve ISO certification and remains the only public listed aluminium extrusion company in the GCC—**continuing to set benchmarks in quality, innovation, and service.**

NAPCO FEATURED PROJECT : The Royal Atlantis Resort & Residences, Dubai, UAE

WHY ALUMINIUM LEADS

Property	UPVC	Aluminum
Strength-to-Weight	Very Poor	Very High Strength
Corrosion Resistance	Good	Naturally Resistant
Durability	Expands in heat	Stable & Long-lasting
Large Openings	Limited	Ideal for Large Spans
Environmental Impact	Toxic emissions	Eco-Friendly
Recyclability	Limited	100% Recyclable
Design Flexibility	Limited finishes	Wide Color Range
Fire Safety	Toxic fumes	Safe Performance

ESG IN NAPCO

NAPCO leads in sustainable aluminium extrusion by combining **low-carbon, recycled materials, energy-efficient production, ethical supply chains, and strong governance.** We prioritize worker safety, community engagement, and diversity, ensuring every operation creates **positive social impact.** This holistic ESG approach drives long-term stakeholder value while **supporting a circular, responsible, and future-ready economy.**
